Why Digital Learning?

**RESEARCH shows digital learning resources can:**

- Personalize experiences that are more engaging and relevant
- Organize learning around real-world challenges and projects
- Move learning beyond the classroom and into communities
- Help students pursue their own passions and interests
- Increase opportunities for all learners

**EDUCATORS use digital learning resources to:**

- Increase student engagement
- Address different learning styles
- Increase student understanding
- Increase student motivation
- Increase student collaboration

**PRODUCERS design effective resources by:**

- Relying on relevant research
- Incorporating educator feedback
- Using human-centered design
- Testing with students
- Evaluating data for impact

**Additional Resources:**

- [Reimagining the Role of Technology in Education](#) by the U.S. Department of Education
- [Education Technology Use in Schools](#) by New Schools Venture Fund
